Extraordinary Resistance

20 MM

Lo más robusto de peronda

La última tecnología en producción cerámica se materializa en 20 mm, el porcelánico de mayor espesor con todos los beneficios de 4D Tech en el producto más robusto de Peronda.

Mayor espesor sin costilla

Somos pioneros en producir piezas de este espesor con prensa continua. Además de todas las características de un producto 4D, 20 mm permite la ausencia de costilla en la pieza.

Resistencia extraordinaria

La base plana del 20 mm ofrece un total contacto con la superficie de soporte. Sobre plots u otro material, el resultado es más resistente, pues toda la pieza absorbe el impacto

Peronda's most robust

The latest technology in ceramic production becomes a reality in 20 mm. The thickest porcelain with all the benefits of 4D Tech in Peronda's most robust product.

Thicker without ribbing

We are pioneers in producing pieces of this thickness with continuous press. Besides all the features of a 4D product, 20 mm allows for the lack of ribbing.

Extraordinary resistance

The flat base of 20 mm offers complete contact with the supporting area. Be it on plots or any other material, it is more resistant since the whole piece absorbs the impact.

MANHATTAN

4D

The mix of materials used to make Manhattan's classic skyscrapers was the inspiration for this multi-format collection by Peronda. What better source of inspiration for the launch of Peronda's biggest format to date: its 100x275cm wall tile format and matching 100x100cm floor tile one, in a Shaped or a non-slip finish.

Las mezclas de materiales utilizados en los clásicos rascacielos de Manhattan son el punto de partida de esta colección multiformato de Peronda. Qué mejor inspiración para presentar el mayor formato de la marca, 100 x 275 cm de altura y pavimento de 100x100 cm a juego tanto en versión shaped como en antideslizante.
