

NOVA

NOVA stands out for its select silver grey stone design: a tribute to the marble used in Ancient Greece to build temples, amphitheatres and monuments. The collection's singular grey hues lend it a timeless distinction, bringing a neutral elegance to living spaces.

One pioneering aesthetic feature of this collection is its Premium Polished Shimmer finish, applied to the 100x275 cm format: a polished surface with a special iridescent effect, combined with what appears to be white particles in suspension. This gives the polished surface greater depth of design, with particle effects that further enhance the superior elegance of its large format.

NOVA also comes in other formats and finishes: 100x180 cm or 100x100 cm in a Shaped finish; 75.5x151 cm in a Polished, Natural or Velvet finish; and 60x120 cm in a Polished or Natural finish.

NOVA has also been added to the MUSEUM ELEVATE range in the form of 12mm-thick 150x320 cm slabs for use as worktops in a Shaped finish, perfect for kitchens in need of a superior touch of elegance.

Sumérgete en la esencia de NOVA y descubre una prestigiosa piedra silver grey. Rememora los mármoles que se utilizaban en la Antigua Grecia para esculpir templos, teatros y monumentos. Su especial tonalidad gris le ofrece un toque de distinción atemporal, aportando elegancia y neutralidad a los espacios.

Su gran innovación estética es el acabado Premium Polished Shimmer, aplicado al formato 100x275 cm: incorpora un efecto iridiscente en superficie pulida, junto con un efecto matérico de partículas blancas en suspensión. El resultado una superficie pulida con mayor profundidad gráfica, y con efectos matéricos que realzan la elegancia y exclusividad de su gran formato.

También disponible en otros formatos y acabados: 100x180 cm y 100x100 cm Shaped, 75,5x151 cm Polished, Natural y Velvet, 60x120 cm Polished y Natural.

Además, se incorpora a la gama de MUSEUM ELEVATE, en encimera 150x320cm (12mm) de acabado Shaped, para aportar a las estancias de cocinas un toque de lo más premium.
